

# Dude Solutions for YMCAs

## Software for Smarter Operations & Happier Members

Your YMCA is all about enriching your community and creating an environment that encourages respect, responsibility, honesty and caring. And daily operations and maintenance play a huge part in that. Let us help you fulfill that mission with confidence and efficiency through our easy-to-use operations management solutions.

### How does it work?

Our cloud-based software helps you meet your daily and future needs around work and asset management, preventive maintenance, IT, energy and events management, safety and more. And it's all easy to use and mobile to make sure you can make the greatest impact with your resources.

### Key Benefits

**Simplify the day-to-day.** Give your team anytime, anywhere access to the information and tools they need to do their job. Manage all work orders, assets and maintenance activity in one central location with improved communication.

**Extend the life of your assets and facilities.** Adopt proactive maintenance workflows with PM and scheduled work orders so you prevent problems before they occur.

**Save where it matters.** Maximize cost savings with new operational efficiencies, as well as reduce liability exposure and maintain lower insurance premiums with detailed digital documentation.

**Operate strategically.** See the current state of your operations and develop a plan for the future. Drive decision-making with configurable data analysis and built-in reports from a central dashboard.

**Go mobile.** Our user-friendly web application goes with you wherever you're needed (desktop or mobile), is optimized for all screen sizes and available on iOS and Android devices.

### Products

**Asset Essentials™** – Our cloud-based maintenance solution is developed for daily and advanced maintenance operations management, from tracking assets to managing preventive maintenance, reporting on operations and more.

**Energy Manager™** – Get better insight into your energy usage and utility bills, identify possible billing errors and centralize your reporting, while syncing up with ENERGY STAR®, so you can start conserving and saving more.

**Event Manager™** – Organize your needs from room bookings to attendees to setup activities easily with interactive calendar tools.

**Capital Forecast™** – Set up a 5-, 10-, or 30-year capital plan with configurable charts and custom reporting, based on your current and future maintenance needs.

### Services

**Facility Condition Assessment** – This on-site assessment provides an accurate analysis of the condition of your facilities for better data, decision-making and more for decades to come.

**PM Schedule Creation** – Through this consultative service, we can help you organize PM schedules and build them into your work order system to extend asset life and maximize your time and resources.
